Portfolio: [my-portfolio](#)

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience in building web systems using ReactJS, TypeScript, and Redux. Experienced in taking projects from early stages to production and directly collaborating with clients to discuss business solutions.

EDUCATION

Ho Chi Minh City University Of Science
Bachelor of Engineering in Information Technology

HCMC, VN
Sep 2015 - Sep 2020

EXPERIENCE

Autoverse Company
Frontend Developer

HCMC, VN
Mar 2024 - Now

- **Smart Garage Solutions:** Developed and maintained garage management systems covering vehicle reception, inspection, repair, payment, warehouse, and cost/revenue tracking.
- **eClaim Platform:** Built an online insurance claim management system from early stage, participating in iterative client demos with insurance companies and successfully delivering a production-ready platform covering claim reception, assessment, repair, compensation, document management, and payment.
- **Requirement Analysis & Client Collaboration:** Engaged with clients to discuss business requirements, refine feature specifications, and propose continuous enhancements for the system.
- **Feature Ownership & Frontend Development:** Owned frontend implementation of business features from requirement analysis and UI development through API integration, validation, testing, bug fixing, and delivery.
- **State & API Integration:** Managed application state with Redux Toolkit and integrated RESTful APIs, including data validation and error handling.
- **Internationalization:** Implemented multilingual support using i18next across all core modules.
- **Release & Production Support:** Collaborated with Backend, QA, and Product teams; managed Git branches, releases, production issues, and hotfixes.

Mandatory Military Service

HCMC, VN
Feb 2022 - Feb 2024

EcarAid Company
Frontend Developer

HCMC, VN
Sep 2020 - Jan 2022

- **VCA Agritech:** Built an outsourced coffee farming management platform, developing web features for farm owners to track cultivation activities and an administrative system for platform operations.
- **Company Website & Web Interfaces:** Developed and maintained responsive web applications and company sites using HTML5, CSS3, and JavaScript, ensuring seamless UI implementation across devices.
- **Frontend Development:** Implemented complex forms, interactive data tables, and reusable UI components tailored to business requirements.
- **Development Lifecycle:** Participated in requirement analysis, UI development, API integration, testing, and bug fixing.

SKILLS

- **Languages:** JavaScript, TypeScript, C/C++
- **Web Technologies & Frameworks:** ReactJS, NextJS, Redux, HTML5, CSS3/SASS, TailwindCSS, Bootstrap, NodeJS, Ant Design, i18next
- **Tools & Databases:** Git, GitHub, Postman, Jira, MySQL
